Direct Jobs  
Created

- Rooftop solar can now be more affordable than buying electricity from the grid.
- Philadelphia was the 4th fastest growing solar market in the US in 2017.
- Solar installer was declared a High Priority Occupation for Philadelphia County through 2019.
- Solarize Philly was the nation's largest single solarize initiative.

# Homeowners across the city are going solar through Solarize Philly

## Helping all Philadelphian go solar at home

PEA made special financing available to a pilot group of low- and moderate-income households to include even more Philadelphians in Solarize Philly. Through this 15-year lease option, our goal is for this pilot group to save 20% off their annual electric bills without having to put any money down upfront.

## Sign Up Now at [solarizephilly.org](http://solarizephilly.org)

Solarize Philly will reopen in 2019. All Philadelphians can sign up now at [www.solarizephilly.org](http://www.solarizephilly.org) to be first in line for a free solar assessment.

Solarize Philly is an initiative of the Philadelphia Energy Authority and Philadelphia City Council.
